# Editorial

---

Building on its heritage of more than 110 years, the Roger Pradier® team carries out its commitment to illuminate the outdoor spaces of our daily lives with passion.

At the start of 2024, we are proud to announce our ISO9001 certification, illustrating our dedication to quality and process management. This certification reflects our unwavering commitment and determination to offer our customers high-quality lighting fixtures and services.

As a member of the Rivalen collective, which has been “société à mission” (French legal framework in which businesses pursue a set of social and environmental purpose with specific sustainability goals) since 2022, we set out our CSR (Corporate Social Responsibility) ambitions through a GESTe action plan based on 4 main axes: Governance, Environment, Social and Territory. Focused on the reduction of our impact, this approach structures our actions, which must be respectful of the environment and the stakeholders around us. These objectives are as much new challenges to take on as they are a framework for the creation of our luminaires. With this in mind, we are carrying out research into the evolution of our materials, enabling us to offer the possibility of limiting the use of varnishes to let raw materials age and evolve. We have also partnered with our neighbour Pyrex for an unprecedented collaboration that led to the creation of 2 models, Carex & Ronex, illustrating our commitment to the circular economy.

Our attachment to the Centre Val de Loire region continues with the completion of the expansion of our plant in Châteauroux and the commissioning of our brand new zero-VOC emission powder coating line. This is an important step in our development to approach the future with serenity.

We are also taking a new step in our international development with the “UL Manufacturer” certification of our factory, which strengthens our position to expand into the North American market.

We are excited to present you our collections as well as our new creations, and to share with you, our valued partners and customers, in France and abroad, a year rich in achievements and innovations.

Jean-Michel Vergain - *General Manager*

# Roger Pradier® Warranties

## 25 years anti-corrosion warranty

The Roger Pradier® company commits itself to replace any faulty part that shows sign of corrosion in a period of 25 years from the date of acquisition by the final client, upon presentation of the purchase invoice.

The warranty applies only to the aluminium part of Roger Pradier® products installed above ground in accordance with industry standards and with the original surface treatment being intact.

Exclusions: products that are scratched, scored, covered with silicone, cement, or any other material, or that have suffered collision or various chemical treatments. This warranty also excludes any phenomenon that may modify the aspect of the covering over time, natural dirt, deposits of all types, etc...

The warranty requires the product(s) to be returned to the factory. No exchange prior to that return can be considered. Roger Pradier® will only replace the damaged part and not the whole appliance; transport, dismantling and installation costs are excluded.

The Roger Pradier® company reserved the right to analyse or to have analysed, by any method of its choice, the damaged caused by corrosion, in order to determine the reliability and the conditions of the said damage. In any event, this guarantee does not apply to the various electrical components and accessories of the product.

## 5 years technical warranty

Other than the specific 25 years anti-corrosion warranty, Roger Pradier® products are guaranteed for 5-years. The technical warranty covers a 5-years period starting at the purchasing date by the final client, upon presentation of the purchase receipt. This warranty shall only apply to products installed according to current practice and which are used according to our recommendations our recommendations. Any intervention or modification made to the product and its components is expressly excluded from this warranty.

The warranty requires the product(s) to be returned to the factory. No exchange prior to that return can be considered. Roger Pradier® will only replace the affected component(s) and not the whole appliance; transport, dismantling and installation costs are excluded.

## Roger Pradier®'s commitments

- A century's worth of experience as a French manufacturer of outdoor lighting fixtures
- Internationally recognized expertise
- A culture of quality
- Roger Pradier® is committed to a CSR (Corporate Social Responsibility) approach in order to minimise the negative impact of its activity and to improve its environment, whether human, social or natural. The various warranties and certifications illustrate our commitment to manufacturing quality and long-lasting lighting products.
- International certifications. Refer to the US catalogue for UL-certified references.

## Informations

Each reference is a complete product.

Bulbs are not included.

All standard Roger Pradier®'s electrical plugs are Schuko type F (mobile models).

Models in brass or copper are provided with black aluminium supports.

The steel supports are not covered by the anti-corrosion warranty.

The coating of brass, copper, zinc, stainless steel or enamelled steel models can deteriorate depending on the climate or the environment. These materials are not guaranteed against oxidation. It is recommended to regularly maintain the light fixtures in accordance with the practices of the profession and to prohibit the use of any abrasive or corrosive material or product.

Our terms of sale are listed on the back of our delivery notes and bills.

As part of its constant strive to improve the quality of the light fixtures, Roger Pradier® reserves the right to modify, without notice or compensation, all or part of the equipment presented in this catalogue.

The images, dimensions and scenarios in the photographs in this catalogue cannot be regarded as contractual.

Roger Pradier® is committed to complying with the new regulations against light pollution. In France in particular, the Decree of 27 December 2018 on the prevention, reduction and limitation of light pollution regulates lighting practices. Since 1 January 2020, these provisions apply to «light installations» in order to be consistent with today's environmental issues.
